 - Ensures that the legal, financial, operational and business requirements are considered when setting objectives and targets
 - Ensure objectives and targets are consistent with the HSE & Q policies including the commitment to the prevention of pollution and prevention of accidents
 - e) Appoint a Safety representative and involve employees in all Health & Safety matters via site meetings, day-to-day consultations upon each site and promote an open door policy.
 - f) Commit adequate financial and physical resources to maintain effect Health & Safety on all sites.
 - g) Report and investigate any accidents, incidents or near miss events,
 - h) Implement current procedures and develop the procedures to ensure adequate provision for:
 - Plant and systems of work that minimise risks to health and safety
 - Suitable arrangements for the selection, use, handling, storage and transport of articles and substances
 - Adequate information, instruction, training and supervision, to enable work to be conducted safely by persons with the necessary competencies
 - Safe premises and work places, including access to and egress from them
 - Safe and healthy working environments with suitable & compliant welfare facilities
 - Designs that recognise, include and apply safe practice during preparation, construction and subsequent operational use and maintenance
 - Leadership and support to suppliers to enable them to contribute to continual improvements in our overall health and safety performance and risk reduction
 - Consultation, occupational health and advisory facilities as required
 - i) Develop and review health and safety performance indicators including:
 - Accident and incident performance rates
 - Attainment of annual safety and health objectives
 - Training achievement
 - Results of health and safety audits
4. An annual review of this policy and the health & safety performance of the company shall be conducted by the Managing Director. At any time where deemed necessary by the Managing Director this policy shall be revised so that continuous improvements can be made to the Health & Safety performance of the company and compliance with legislative changes. All policy changes shall be notified to the employees in writing.
5. The Managing Director, Alistair Mackinnon has overall responsibility for implementing this policy. He is responsible for the health and safety of the employees and others who may be affected by our undertakings.
6. It is the responsibility of all employees to implement this policy together with their collective and individual responsibilities.
7. All employees at every level must accept degrees of responsibility for implementing this policy and ensuring safe systems of work are adhered, whilst ensuring they safeguard themselves and that their actions do not place others at risk.
8. The Directors and Project Managers shall ensure every employee is aware of their legal obligation to comply with; Mackinnon Construction Work Procedures, Safe Systems of Work, and Statutory Legislation, so to avoid injury, minimise risk and safeguard all employees and others who may be affected by our undertakings.
9. This policy statement shall be briefed to all employees and suppliers to MCL and made freely available to relevant parties.

Signed:

Date: 15th January 2018

Alistair J. Mackinnon - Managing Director - Mackinnon Construction
